

Around the Swimspa we have some Millboard decking on display as a very small example of the extensive range of high quality, low maintenance composite decking in many colours and textures that we can provide for both Indoor and outdoor pool and spa surrounds.

BAYROL

Bayrol – the well known manufacturer of high quality swimming pool chemicals and chemical controllers have launched a new salt water chlorinator range. Built to their usual high standards these machines are simple to use and provide simple and reliable water care without effort and hassle, offer an environmentally friendly concept allowing you more time to enjoy your pool carefree and long term protection of your equipment and therefore your investment. For further details please call 01527 861321 or email sales@poolsandgardens.co.uk

Portland Pool Products

Portland pool products - have added a new, Natural pool and spa clarifier to the extensive product portfolio . these products provide a safe and effective, 'chemical free' and environmentally friendly way to remove cloudiness, dirt, grime or milkiness from pool and spa waters. Natural clarifiers contain 'chitosan' from shells, which are also excellent at binding dissolved metals such as free copper and iron, tanning products, oils and any algae present in the water - making them easy to remove with conventional filtration systems. Available in 490ml and 1L bottles, 120ml of Natural Pool Clarifier will help to maintain clear pool water in a 50,000 L pool for up to a fortnight.

Available as a 225ml bottle, just 10ml of Natural Spa Clarifier will maintain clear spa water. Application before use can prevent spa staining from cosmetics and tanning products.

Please note ; these clarifiers should all be used in conjunction with your normal swimming pool or spa sanitiser. .

Millboard decking

Wood looking decking that maintains its' beauty. Its authentic wood appearance is moulded from carefully selected timbers, and hand coloured to accurately reflect natural tones. Millboard composite decking will not

rot or warp, is slip resistant, stain & algae resistant and is incredibly low maintenance – all qualities that make it a great choice for a beautiful swimming pool or spa surround. For details and a quotation for installation please call 01527 861321 or email sales@poolsandgardens.co.uk
